

# Practice (Due: 8th March, 2007 before noon)

Create a >10 seconds sound file.

Request:

1. **Mix** a music background **with** any sound segment, such as a few words of your own voice recorded, etc.
2. **Fade in** at the beginning and **fade out** at the ending part of the sound with about **3~5 seconds**.
3. Add Echo effect.
4. Save the file as **.mp3** type with **Layer-3, 44100 Hz, 128kbps, stereo**.
5. The size of the sound file is limited in **500KB**.
6. Submit the softcopy to WebCT.
